

# HYPHE

# & GEPHI

# WORKSHOP

*With Mathieu Jacomy, designer and developer of the tools*

**Tuesday November 12  
EXPLORING THE WEB**

Learn how to use Hyphe, a web crawler developed for the social sciences and humanities allowing researchers downloading publicly accessible web pages and hyperlinks.

9:00-10:00 How it works  
10:30-12:30 Hands-on tooling

**Friday November 15  
NETWORK ANALYSIS**

Learn how to visualize and analyze the topology of networks with Gephi. The first session introduces the tool while the second covers good practices and how the algorithms work.

10:00-12:00 Beginner session  
13:00-14:30 Advanced session  
14:30-15:00 Q+A session

*Everyone with an interest in digital methods for humanities and social sciences is welcome :)*

**Venue: XLAB, room 3.133, Kroghstræde 3, 9220 Aalborg  
Department of Culture and Learning, Aalborg University**

**Register by email to [tantlab@learning.aau.dk](mailto:tantlab@learning.aau.dk)**
